Digital Workspace - Express

We are a top tier Apple, Google and Microsoft partner with strong alliances across multiple complementary vendors. Our Digital Workspace service solutions span device, application and user management. We overlay this with tools that enable users to create, collaborate and communicate anytime, anywhere, on any device.

Deployment & Management

XMA are here to support you on every step of the way on your device journey, and help you get started with your new devices to ensure a seamless experience from the moment you open the box. This starts at the very beginning with the IT deployment. Our team of experts will configure the devices in-house, ready for the deployment to the end-users. We will also support you in the ongoing management of the devices through our professional services, as well as enabling you to be self-sufficient in device updates for the longer-term.
