

NUTANIX™

Nutanix GPT-in-a-Box 2.0

Unlock your data with AI

Ready to upscale your business with AI?

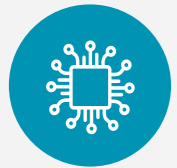

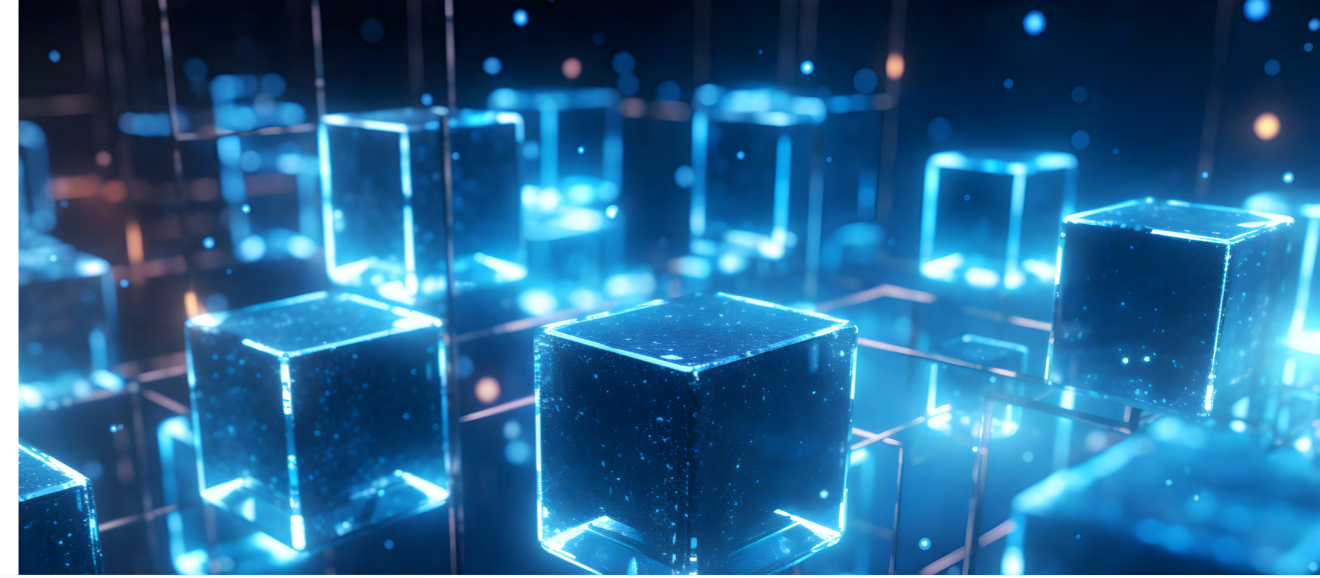

Nutanix GPT-in-a-Box 2.0 is your turnkey solution!

Nutanix GPT-in-a-Box 2.0 is a comprehensive AI solution that enables organisations to implement GPT AI capabilities into their data centre while maintaining full control over their data. This turnkey solution addresses the complexity, scalability, and security challenges that often hinder enterprise AI adoption.

With the rise of AI, many customers feel unsure of introducing it to their data. But AI truly shines when it unlocks the power of your data through its generative and inference capabilities. Sounds like a catch-22, do you sacrifice security or progress?

With GPT-in-a-Box 2.0, you get the best of both worlds. It works securely, staying inside your organisation, where the AI (and your data!) never leaves your walls. GPT-in-a-Box 2.0 gives you peace of mind whilst delivering the power you need to propel your organisation into the future.

The Many Benefits of GPT-in-a-Box 2.0

Simple AI Integration

Seamlessly integrate AI into your existing IT infrastructure, eliminating the need for extensive modifications or disruptions.

No Scalability Issues

Ensure AI capabilities grow with your business, accommodating increased data volumes and processing demands without performance degradation.

Keep Data Security on Lock

Protect sensitive data with robust security features, including encryption, access controls, and compliance with industry standards.

Dodge Performance Bottlenecks

Enable faster and more efficient data analysis with high-performance processing, accelerating insights and decision-making.

No Technical Expertise Needed

Leverage AI without needing deep technical knowledge, thanks to a user-friendly interface and pre-configured models.

Improve Operational Efficiencies

Automate routine tasks to improve productivity, freeing up valuable resources for strategic initiatives.

GPT-in-a-Box 2.0 is a Solution for Everyone

Organisations can deploy AI bots for enhanced customer service and technical support, streamline document search and analysis, enable code co-piloting, and strengthen fraud protection measures.

Pharma & Healthcare

Accelerate drug discovery through generative antibody design and efficient processing of OMICs data

Financial Sector

Optimise investment portfolios and gain valuable insights into customer behaviour for targeted upselling.

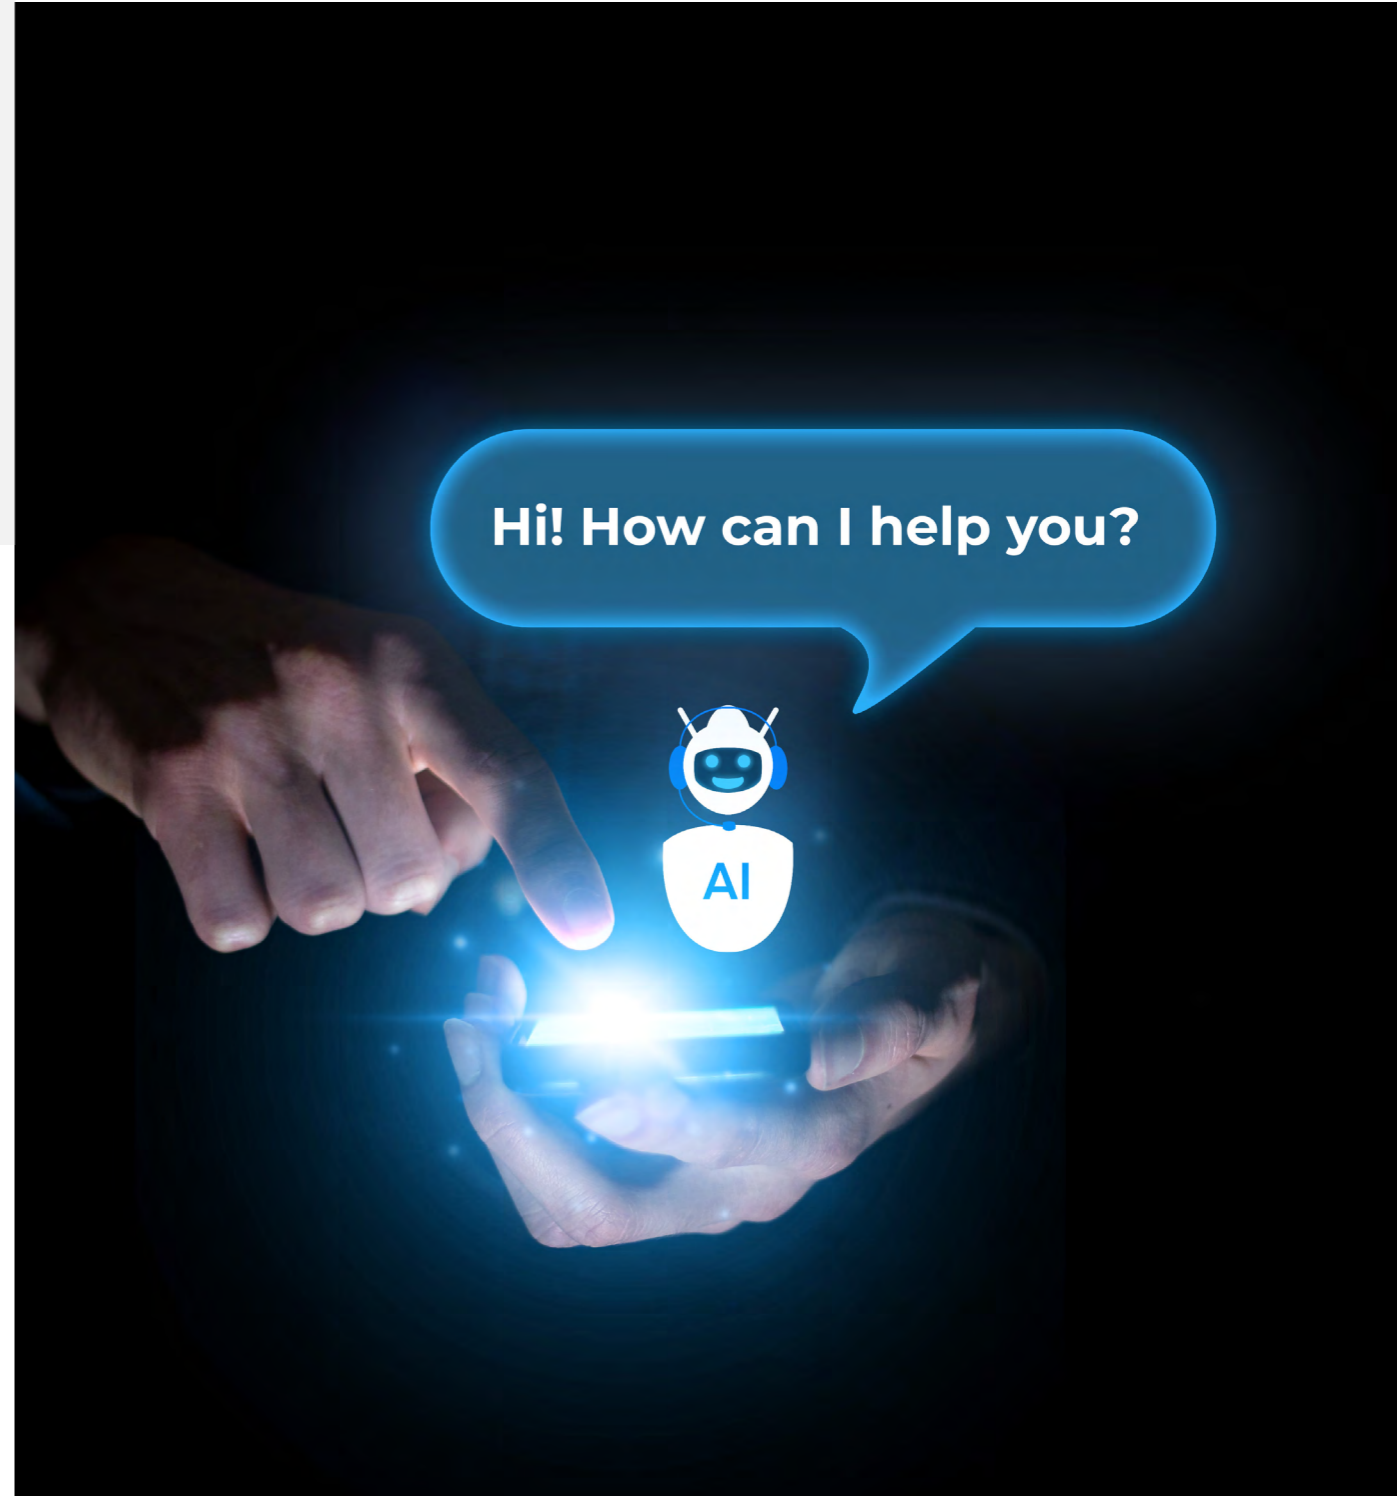

Retail

Improve product quality control with visual inspections and detect fraudulent activities in real-time.

Government

Enhance mission planning and decision-making with AI-powered co-pilots, create realistic simulations and digital twins, and develop sophisticated multi-agent systems.

NUTANIX™

Make the most of your data with XMA

XMA leverages our expertise and partnership as a Nutanix Reseller Champion to provide first-class data centre solutions. We'll help you navigate the complexities of AI integration, ensuring a smooth and successful deployment of Nutanix GPT-in-a-Box 2.0.

Unlock the power of your data with AI while maintaining control and security. Contact XMA to learn more about Nutanix GPT-in-a-Box 2.0.
