Samsung Galaxy Tab S10 and A9 Series

Exceptional devices for the
anywhere workplace

SAMSUNG

Exceptional devices for the anywhere workplace

The rise of AI is transforming the workplace, making it more flexible and accessible than ever before.

Galaxy AI 

To thrive in this new era of work, professionals require robust, reliable devices that take full advantage of the power of AI. Companies that embrace fluid working and provide their employees with cutting-edge AI mobile business tools are better positioned to attract and retain top talent in today's competitive job market.

Samsung, the leader in technology innovation, has developed a suite of powerful AI mobile business tablets designed to enhance productivity and connectivity. Backed by Samsung's comprehensive ecosystem of security, services, and support, these tablets empower individuals to stay connected and elevate their productivity to unprecedented levels.

Let's meet the Samsung Galaxy Tab family.

Knox Suite Built to protect

Knox Suite is an all-in-one enterprise mobility solution bundle built to make mobile security effortless.

With Enterprise Edition you get 1 year of Knox Suite Unified Endpoint Management for free when you purchase additional years upfront giving you assurance that your fleet and data is under control.

These features have been specifically designed to address more sophisticated security needs for confidential data and help fill a number of security management gaps to help meet strict regulatory requirements.

Knox Platform for Enterprise
Government-grade security for business

Knox Mobile Enrollment
Bulk device setup and deployment

Knox Manage
Powerful mobile management

Knox Authentication Manager
Multiuser facial biometrics and sign-in automation

Knox E-FOTA
Control OS updates

Knox Asset Intelligence
In-depth usage analytics

Knox Capture
Transform devices into barcode scanners

Knox Mobile Enrollment Advanced Profile
Secure EMM enrolment

Galaxy Tab S10+ / Tab S10 Ultra

The first AI premium tablet

Discover the premium viewing experience of the new Galaxy Tab S10 Ultra and Tab S10+, now supercharged by the best of Galaxy AI features.¹ With the largest tablet display size ever, you'll make your work life that much more productive and effortless. And with enhanced Armour Aluminium and IP68 dust and water resistance,² the Samsung Galaxy Tab S10 Series is built to last—in the boardroom or out in the field.

That's the power of Samsung's first AI premium tablet.

¹ Samsung account login may be required for certain AI features. Samsung does not make any promises, assurances or guarantees as to the accuracy, completeness or reliability of the output provided by AI features. Galaxy AI features will be provided for free until the end of 2025 on supported Samsung Galaxy devices.

²Based on test condition for submersion in up to 1.5 meter of fresh water for up to 30 mins. Not advised for beach or pool use.

Galaxy Tab S10+ / Tab S10 Ultra

Note smarter, not harder

In the fast-paced world of business, capturing ideas quickly is crucial. That's why, with the Samsung Galaxy Tab S10 Ultra and Tab S10+, you can use the S Pen to jot down meeting notes, sketch diagrams, or capture those fleeting moments of inspiration. Samsung's AI-powered feature,¹ Note Assist, instantly converts your handwriting to text, corrects spelling, formats the document and summarises key points, and it can even translate it into a different language.

Plus, with the Tab S10 Series optimised side-by-side view, you can see your handwritten notes alongside summarised versions, keeping you organised and efficient. The Tab S10 Ultra and Tab S10+: where creativity meets productivity.

Smarter business productivity

The Samsung Galaxy Tab S10 Series isn't just powerful: it's intelligent. Unlock next-level productivity with Galaxy AI,¹ now optimised for the Tab S10 Series expansive screen and intuitive S Pen. Need information fast? Press the dedicated AI Key on the detachable Book Cover Keyboard,² and you'll instantly summon your AI assistant.

Transcribe meetings and webinars directly into your notes with Transcript Assist, then summarise or translate them in an instant. Uncover deeper insights with Circle to Search with Google:³ simply circle images on-screen to reveal relevant results, or circle text to translate it.

The Tab S10 Series: where AI empowers you to work smarter, not harder.

Making greater connections

Take your office on the go with the Samsung Galaxy Tab S10 Series: Multi Control lets you use one mouse, keyboard, or trackpad to seamlessly manage your Galaxy Book,⁴ tablet, and smartphone all at once. Drag and drop files between devices, transition seamlessly from a video call on your phone to your Tab S10 Series' larger screen, and experience a PC-like workflow by connecting to a compatible monitor with Samsung DeX.

¹ Samsung account login may be required for certain AI features. Samsung does not make any promises, assurances or guarantees as to the accuracy, completeness or reliability of the output provided by AI features. Galaxy AI features will be provided for free until the end of 2025 on supported Samsung Galaxy devices. ² Book Cover Keyboard sold separately. ³ Requires internet connection. Results may vary depending on visual matches. Accuracy of results is not guaranteed. ⁴ Requires a Galaxy Book with One UI Book 6.0 or above. ⁵ Based on test condition for submersion in up to 1.5 meter of fresh water for up to 30 mins. Not advised for beach or pool use. Vs. Tab S9 Series

Galaxy Tab S10+ / Tab S10 Ultra

See more, do more

Experience work like never before with the Samsung Galaxy Tab S10 Series, featuring our largest tablet screens ever—14.6" on the Tab S10 Ultra and 12.4" on the Tab S10+. The Dynamic AMOLED 2X display delivers exceptional clarity, whether you're reviewing documents, presenting or collaborating on video calls all with a silky smooth 120Hz refresh rate. Colours are vibrant and contrast is balanced, even in bright outdoor environments. Vision Booster automatically optimises the display for peak clarity, while the anti-reflective coating minimises glare, ensuring a comfortable viewing experience in any lighting.

Work smarter, longer

The Samsung Galaxy Tab S10 Series delivers premium durability without compromise. Crafted with an enhanced Armour Aluminium design, the Tab S10 Series boasts a 10% increase in resistance against scratches and dings.⁶ IP68 dust and water resistance⁵ means it can handle the demands of any workday, in the office or out and about. Inside, the most powerful processor ever in a Galaxy Tab, equipped with an efficient vapour chamber cooling system, powers through demanding tasks without overheating. The Tab S10 Series is built to keep pace with your business, wherever it takes you.

SAMSUNG

Rugged Range

Rugged on the outside, smart on the inside.

When you work in tough conditions, you need devices that go beyond conventional expectations. Meet the new range of Samsung Rugged devices – smart technology designed to thrive in harsh work environments. They're your ultimate rugged work companions.

Protected against the unpredictable.

Work confidently anywhere. Samsung Galaxy Rugged Series devices are ready for any challenge, even at altitude.

Certified to MIL-STD 810H, they can take up to a 1.8-metre drop with the cover on,¹ meaning they won't break in loading bays or in the field. And with Corning® Gorilla® Glass, they're sanitiser-safe² – perfect for healthcare heroes.

IP68 water and dust resistance³ means they're built to withstand wet weather and dusty conditions, from factory floors to building sites. Plus, with a powerful replaceable battery, you can focus on tasks for longer.⁴

Intuitive productivity.

Get more done, at the push of a button. Bigger, brighter screens help you see and do more, making work easier. Plus, with programmable keys, you can set up shortcuts for frequently used apps, minimising interruptions to your workflow.

Want to take payments⁵ without being tied to a checkout? No problem, Samsung Rugged Series devices are your go-to mobile point of sale.⁶ And with the built-in barcode scanner, checking inventory, prices and product info is as easy as pointing the camera. When you've got to keep those gloves on, Samsung Rugged devices have your back, too. Improved screen sensitivity captures commands to keep your tasks on track – even in the rain⁷ or with wet gloves.⁸

Quickly connected to the essentials.

Stay in touch on the frontline. Samsung has teamed up with Microsoft, combining leading hardware and software to unlock new ways for workers to connect practically anywhere. You can send private location data or alerts, even if the network is down,⁹ and stay in constant walkie – talkie-style contact via the programmable key. And don't forget, all Samsung Rugged devices include 5G network¹⁰ connectivity plus fast and reliable Wi-Fi—so you don't need to worry about staying in touch with your team.

Enhanced support for busy workers.

Handle all your device needs, and keep your fleet secure, with Enterprise Edition. Get your team back up and running quickly, if their device is lost or damaged, with next-business-day replacement. Set-up, deploy and manage devices quicker and simpler than ever with our QuickStart Go service. And make sure everything is fully protected with 5 years of security and maintenance releases.¹¹

Your devices will stay field-ready for longer with Extended Product Lifecycle.¹² Plus, you can easily manage your fleet and supercharge your employees' productivity with Knox Suite¹³— an all-in-one package of tools. And don't forget, all Samsung Rugged Series phones and tablets feature Samsung Knox defence-grade security to keep your devices and sensitive data safe.

[Read More](#)

¹ 5G requires optimal 5G connection and actual speed may vary depending on market, carrier, and user environment.

² Compared to XCover5

³ Tested in Level 3 'Direct Sunlight' 50k-100k lux

⁴ The device can be used in wet environments, but not fully submerged under water. Underwater touch is not available. Touch sensitivity increases

responsiveness for leather gloves thinner than 2mm or less in thickness, based on internal laboratory test results.

Touch-responsiveness may vary depending on the material and thickness of gloves as well as other environmental conditions.

⁵ MIL-STD-810H test scope: Altitude, Humidity, Immersion, Salt Fog, Dust, Vibration, Drop, and more.

⁶ Compared to Gorilla Glass 6 used in Galaxy XCover5. Twice scratch resistance of Gorilla Glass 6 and 25% more drop protection. Test results of a single Gorilla Glass Victus LCD unit conducted separately by Corning (results on XCover6 Pro may be different).

⁷ Resistant to dust and up to 1.5 metres of fresh water for up to 30 minutes (IP68). Rinse residue/dry after wet. Not advised for beach or pool use.

⁸ Microsoft Teams application and license required. Barcode scanning may require app remapping to programmable key to use full feature.

⁹ POGO charging dock sold separately.

¹⁰ In the case of extra replaceable batteries, only Samsung – certified products are compatible for use.

SAMSUNG

Why XMA and Samsung?

XMA's best-in-class solutions and services, paired with Samsung's robust hardware and industry-leading devices, create a seamless and powerful experience.

This partnership enhances productivity and efficiency by streamlining workflows and automating tasks. Enjoy a unified ecosystem that simplifies device management and enhances user experience with seamless integration.

Stay ahead of the curve with continuous innovation from both XMA and Samsung. And with dedicated support, enterprises can rely on expert assistance whenever needed. Unlock the full potential of your business with XMA and Samsung.
